Ref: **REQUEST TO EXTEND THE PERIOD OF PROJECT ALLOCATION PER RESOLUTION G-03-19, STIP PROJECTS. WAIVER-03-54**

ISSUE:

Should the California Transportation Commission (Commission) approve a request by the Department of Transportation (Department) for a 12-month extension for the **17** projects on the attached list that can not be delivered due to the lack of State Highway Account (SHA) funds?

RECOMMENDATION:

The Department recommends approval of this request.

BACKGROUND:

The "Policies and Procedures Specific to the 2004 STIP" section of Resolution G-03-19, State Transportation Improvement Program (STIP) Guidelines, adopted by the Commission on December 11, 2003, stipulate that, "the Commission may approve allocation extensions on the basis of lack of funding", and "In the case of Caltrans projects, the Commission will grant extensions of the allocation period for construction if it finds that the delay in delivery is due to a lack of available funding for project development or right-of-way."

The **17** Capital Outlay projects on the attached list are programmed for construction and design in FY 2003-04. The total programmed amount for these projects is **$191,873,000**. The Department has determined that these projects can not be delivered due to the lack of SHA funds.
