

# 2022 California TAMP Fundamentals Workshop # 1

## 2022 California TAMP Fundamentals Workshop

This first in the series of workshops for the development of the next Transportation Asset Management Plan will focus on the federal and state requirements of the TAMP, results of Caltrans listening sessions that took place in February and March with our local partners, mapping the NHS, and timeline for the collection, reporting, and updates of the inventory and condition of the NHS. Then it will conclude with the participation and preparation needed for upcoming workshops.
