

Contract Outreach Meeting September 6th, 2022, 2pm

Questions received:

Participant 1: "can we get a copy of the presentation"

Due to ADA restrictions, a copy of the presentation will not be made available online. For any questions specific to what was presented, please reach out to Gabrielle Dashiell gabrielle.dashiell@dot.ca.gov

Participant 2: "Do we need Native American monitors in our proposal?"

Not as staff. Native American monitors are generally an "Other Direct Cost" (ODC) under On-Call Environmental Contracts.

Participant 3: "Why does Caltrans require a BLM excavation permit for paleontology?"

BLM excavation permits are required when excavation is occurring on BLM land. Caltrans must abide by all policies and procedures when working under other agencies jurisdictions.
