

Question & Answer

1. Will the same firm be able to participate (whether as a prime or a subconsultant) on both "on-call" contracts?

Yes, the same firm will be able to participate on both "on-call" contracts.

2. What is the process of where the subs can submit financial information to Caltrans directly?

Detailed email instructions regarding financial documents submittal will be sent to the most highly qualified firm, Rank 1. This will occur after the final ranking of consultants has been determined. Typically, for A&E Contracts, the prime consultant of the most highly qualified firm will be compiling and sending the subconsultant's financial information to Caltrans using Novell Filr. However, if a subconsultant(s) elects to submit financial documents directly to DPAC A&E Contracts, information must be sent by email to the A&E Financial Submittal Inbox.

3. Please clarify how past contract rating values will be used in consultant selection process?

Initial Evaluation – SOQ Criteria #5 - Past Performance Data:

A&E Consultant Performance Evaluation Reports (ADM-2031) are used to score Criteria #5 only when every responsive firm has at least one (1) ADM-2031 on file in DPAC. This is to ensure that the consultant selection process is fair and competitive.

4. Will the SR-55 Project Specific on call construction be included in the OCTA projects or will it be separate standalone projects? To be clear, will SR55 Multi Asset and Safety project be combined with OCTA SR55 Corridor Improvement projects during construction?

The SR-55 Project Specific will be separate from OCTA's projects.

5. Will this presentation be available?

A final copy of the presentation will be provided by Kevin Pham per email request sent to him. The questions will be posted online by DPAC.

6. Can we please have Kevin's email?

His email is kevin.k.pham@dot.ca.gov
