The night time closures are necessary to minimize traffic delays and provide a safe work zone for construction crews and motorists while working along the I-5. Statewide Traffic Safety and Signs, Inc. is the contractor on this \$2.5 million project which began in June 2016 and is expected to be completed by summer of 2017. Improvements will bring existing sign structures to current standards and increase operational safety. Construction signs and changeable message signs will be in place to alert motorists of closures. Motorists should anticipate delays, plan ahead and use alternate routes. Motorists are advised to **“Be Work Zone Alert.”**
