

Four Bridges Project

Alternatives

Build Alternatives

Alternative 1 - upgrade bridge rails and widen bridge decks to provide a minimum shoulder width of 4-feet on the Ohman Creek (PM 0.88), Elk Creek (PM 10.43), Bridge Creek (PM 10.80), and Bear Creek (PM 43.02) bridges.

Alternative 2 - upgrade bridge rails and widen bridge decks to provide a minimum shoulder width of 4-feet on the Ohman Creek, Elk Creek, and Bear Creek bridges and completely replace the Bridge Creek Bridge.

No Build Alternative

The no build alternative proposes to maintain the existing conditions without any improvements.
