

Dr. Fine Bridge Replacement Project

About The Project

This project will replace the Dr. Fine Bridge over the Smith River on Route 101 north of Crescent City. Built in 1940, the existing bridge is near the end of its useful life. A new bridge will better accommodate vehicles, pedestrians, and bicyclists. The project is expected to cost around \$50 Million.

Current Schedule

Summer 2011

Circulation of Draft Environmental Document

Summer 2012

Circulation of Final Environmental Document

Fall 2014

Completion of Final Design

Winter 2014

Begin Construction

2017

End Construction

Dr. Fine Bridge
