

Project Description:

This project will upgrade State Route 63 – Mooney Boulevard in the City of Visalia from a four-lane to a six-lane divided highway from Packwood Creek to State Route 198. As part of this project, dual left-turn lanes and exclusive right-turn lanes will be added at four major intersections, Caldwell, Tulare, Orchard and Beech Avenues. In addition, the City of Visalia will also make identical upgrades to Whitendale and Walnut Avenues. Twenty bus bay turn-outs will be constructed at major intersections and at mid-block locations. Median landscaping will also be included within the project scope.

Project Purpose:

This project will improve traffic operations by increasing the capacity on this segment of State Route 63 through the City of Visalia. Construction of this project will reduce traffic congestion on local streets, by improving traffic flow, reducing travel times and increasing safety for motorists.

Construction Cost: \$12 Million

Begin Construction: June 2008

End Construction: Winter 2009

Funding Sources: State Transportation Improvement Program (STIP)

Contractor: Teichert Construction, Kingsburg, CA
