November 23, 2010

Ms. Diane Boyer-Vine  
Legislative Council  
State Capitol, Room 30201  
Sacramento, CA 95814

Mr. Gregory Schmidt  
Secretary of the Senate  
State capitol Room 3044  
Sacramento, CA 95814

Mr. E. Dotson Wilson  
Chief Clerk of the Assembly  
State Capitol, Room 3196  
Sacramento, CA 95814

Dear Ms. Boyer-Vine and Messrs. Schmidt and Wilson:

California's Government Code Section 16724.4 requires the lead State agency administering any State bond measure approved after January 1, 2004, to provide an annual report to the California State Legislature with a list of projects funded from bond proceeds. The list is to identify the geographic location, the amount of funds allocated, and the status of each project. The California Department of Transportation (Department) is the administering agency for the Proposition 1B Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA). The PTMISEA includes \$4 billion with \$400 million allocated to the Department for Intercity Rail and \$3.6 billion to be allocated to regional agencies and transit operators for transit systems.

The full \$400 million (less administrative costs) from the PTMISEA has been committed to Intercity Rail projects that will commence construction or procurement activities between August 2008 and December 2011. A total of approximately \$849 million has been allocated to regional agencies and transit operators that are currently underway. The attachments provide a list of the projects receiving this funding.

Distribution to the Legislature has been made by the Department pursuant to California Government Code section 9795. This report can be found at [www.dot.ca.gov/reports-legislature.htm](http://www.dot.ca.gov/reports-legislature.htm).

Sincerely,

  
CINDY McKIM  
Director

Enclosure

CALIFORNIA DEPARTMENT OF TRANSPORTATION

**Annual Legislative Report  
Fiscal Year 2009-10**

**Public Transportation Modernization, Improvement, and  
Service Enhancement Account Program**

## **Background**

The Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA) Program was created by the passage of Proposition 1B, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006. Of the \$19.925 billion available to transportation, \$4 billion dollars was allocated to the California Department of Transportation (Department) for intercity rail projects and for commuter or urban rail operators, bus operators, waterborne transit operators, or other transit operators in California. The PTMISEA Program will provide funding for rehabilitation, safety or modernization improvements, capital service enhancements or expansions, new capital projects, bus rapid transit improvements, or for rolling stock procurement, rehabilitation, or replacement, over a ten-year period.

General obligation bond law requires the administrative agency to submit a report to the California State Legislature no later than January 1st each year. This requirement is found in California Government Code section 16724.4. In addition, this section states that the report shall contain:

- (1) A list of all projects and their geographical location that have been funded or are required or authorized to receive funds.
- (2) The amount of funds allocated on each project.
- (3) The status of any project required or authorized to be funded.

The Department has established the Proposition 1B Bond Accountability website and has posted this information related to each project. The Department administered programs can be accessed from the Intercity Rail Improvement link and the PTMISEA link. The website address is: <http://www.bondaccountability.dot.ca.gov/bondacc/>

## **Mass Transportation Program Proposition 1B Bond Fund**

Of the \$4 billion available in PTMISEA, \$3.6 billion dollars is to be allocated to regional agencies transit operators over a ten-year period. The PTMISEA Program was designed to help advance the State's policy goals of providing mobility choices for all residents, reducing congestion, and protecting the environment. Guidelines for the PTMISEA Program were developed through a cooperative effort with stakeholders. Eligible transit projects include:

- Rehabilitation, safety, or modernization improvements.
- Capital service enhancements or expansions.
- New capital projects.
- Bus rapid transit improvement.
- Rolling stock procurement, rehabilitation, or replacement.

**Status**

To date, the Program has released \$849 million for over 400 projects. The following is a breakdown by Fiscal Year (FY):

**FY 2007-08**

<b>Cycle</b>	<b>Number of Projects</b>	<b>Funds Requested</b>
Cycle 1	106	\$ 394 Million
Cycle 2	<u>99</u>	<u>\$ 136 Million</u>
<b>Total for FY 2007-08</b>	<b>205</b>	<b>\$ 530 Million</b>

**FY 2008-09**

<b>Cycle</b>	<b>Number of Projects</b>	<b>Funds Requested</b>
Cycle 1	107*	\$ 255 Million
Cycle 2	<u>111**</u>	<u>\$ 63 Million***</u>
<b>Total for FY 2008-09</b>	<b>218</b>	<b>\$ 318 Million</b>

**FY 2009-10**

<b>Cycle</b>	<b>Number of Projects</b>	<b>Funds Requested</b>
Cycle 1	<u>246</u>	<u>\$ 341 Million (awaiting funding)</u>
<b>Total for FY 2009-10</b>	<b>246</b>	<b>\$ 341 Million</b>

\*Of the 107 projects, 24 were previously allocated with 2007-08 funds.

\*\*Of the 111 projects, 12 were previously allocated with 2007-08 funds.

\*\*\*Due to the lack of bond sales, FY 2008-09 cycle 2 funds were not released to project sponsors until June 2010.

Currently there are 246 projects ready to proceed, waiting to be funded by the next bond sale.

Attachment A is a list of all projects funded from the first three cycles and the status of each. Attachment B shows the funding released for the 2008-09 Cycle 2 projects. Since this funding was released in June 2010, these projects have not reported status updates.

The following table illustrates the current totals for percentage complete:

<b>% Complete</b>	<b>Count</b>
100%	112
75-99%	52
50-74%	29
Less than 50%	86
<b>Total</b>	<b>279</b>

### **Intercity Rail Program Proposition 1B Bond Fund**

The guidelines for the Intercity Rail Improvement Program (IRI) were adopted by the California Transportation Commission (Commission) on December 13, 2007. The IRI Program provides \$400 million, upon appropriation by the California State Legislature, to the Department for intercity passenger rail improvement projects. Of that total, a minimum of \$125 million is designated for procurement of additional intercity passenger railcars and locomotives.

At its February 2008 meeting, the Commission programmed 12 projects, including the railcar and locomotive procurement, for the IRI Program. To date, a total of \$99,402,000 has been allocated to projects. Five projects have received full allocations, three have received partial allocations and four other projects are planned for future allocations as funds become available from the sale of bonds. The summary of the status of these projects is shown on Attachment C.

Please note this information is subject to change as new information becomes available.
