Portland cement concrete grinding is excluded from this quotation.

Removal of Asphalt Concrete over gutter damages can't be guaranteed by ABSL.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to post streets with "No Parking" signs prior to subcontractor's phase of work, provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

A minimum of two weeks notice is requested prior to move in.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

All teeth over one complete set will be charge to the contractor.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid till a new change of the rates.

If you have any questions regarding the above quote please call me at (510) 727-0900 or fax at (510) 727-0912.

Sincerely,

Daryl Vorne

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

- 1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
- 2) Modification to the work may require a change in the quote.
- 3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
- 4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
- 5) All teeth over one complete set will be charge to the contractor.
- 6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
- 7) In the event there is an increase in the cost of fuel of more than \$0.50 per gallon during the performance of this contract, ABSL will be entitled to a \$75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonlo.eia.doe.gov/oog/info/whodp/diesel.asp.
- 8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: \$425.00 per hour.
- 9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
- 10) This proposal to be attached and made part of any and all resulting contracts.
- 11) The above price does not include permits, fees, bonding, state or local taxes.
- 12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
- 13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
- 14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.
- 15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
- 16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4215) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
- 17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne

f. List items of work the Bidder made available to DBE firms. Identify those items of work the Bidder might otherwise perform with its own forces and those items that have been broken down into economically feasible units to facilitate DBE participation. For each item listed, show the dollar value and percentage of the total contract. The Bidder must demonstrate that sufficient work to meet the goal was made available to DBE firms.

Including follow-up phone call log

Melissa Daniels placed phone calls to solicited firms on 12/9/13 as a follow up to our written solicitation sent on 12/4/13. The results of these phone calls are noted on the list of firms next to each company name. Results are as follows:

- Out of Area – this firm does not do work in the area of this project.
- Yes Bidding – an authorized representative of this firm advised Melissa that they would be bidding. Melissa confirmed our company's contact information with the representative for their use for sending their price.
- Left Message – Melissa called this firm, got their answering machine and left a message with our company information, the job we are bidding, the date it is bidding and requesting a call back to see if we can get a quote. A second follow was placed to each of these firms on bid day.
- No Bid – an authorized representative advised Melissa they would not be bidding this project.
- No Answer – no person answered the phone and the company did not have an answering machine.

Terms and Conditions:

Complete Analytical and Geotechnical reports must be provided by contractor and approved by landfill prior to soil removal. All soil testing must meet the landfill's requirements. All delivered materials are subject to the contractor's approval and must be approved prior to hauling. Tonnage and load prices are only valid with standby times (\$1.50 per minute beyond 10 minutes per truck at both loading and receiving sites) paid in full; otherwise, hourly rates will be charged for all trucks. Tonnage and load rates apply to a minimum of eight hour work day. Night Work will be the same charge as Saturdays. Six hour minimum per day per truck applies to all jobs. Bridge Tolls will be billed separate for all hourly trucking, if applicable. All prices are subject to a 5% increase each year, except dirt haul prices and dumpsite, which are subject to change anytime due to weather and/or any other factor beyond our control. General Prevailing Wage (Determination: C-DT-830-261-7-2009-1) will be billed only hourly and twenty percent extra, over and above the prices listed in this quote. This quote does not apply to Federal and Major Holiday. Material prices and dump fees exclude fuel surcharges and environmental fees imposed by quarries and landfills. All extra fees imposed by quarries and or landfills will be billed separately if applicable. An extra cleaning time of one hour will be charged per truck and per shift for Rubber, Wet CTB and OGAC, if necessary. Fuel Surcharges: The above rates are based on the current fuel prices (see above date.) These rates will increase by 3.5% for every 0.50 increase in fuel. Accounts overdue beyond 30 days of billing will be charged at an interest rate of 24% per annum. Customer is also liable for an additional 25% of unpaid balance plus accidental collection costs, including attorney fees. Any valid charges must be provided to Economy Trucking Services, Inc. in the event of any delays, damage and/or losses related to trucking within Five Days from the date of the occurrence. After five days, such charges will not be approved and/or accepted. Customer agrees not to hire any other company to haul dirt to the same dumpsite that is provided or proposed by Economy Trucking Services, Inc. or otherwise we have the right to collect any/all profits entitled to trucking & dirt hauling. This quote is good for 30 days from the above bid date.

- Bridge Tolls: As R & S Trucking services throughout the 9 San Francisco Bay Area Counties and beyond, any and all applicable bridge tolls will be added to the above rates.

PREVALING WAGES HOURLY RATES

- All 5-axes, 4-axes and 3-axes reflect the same hourly rate for the 1st (first) 8 hours in any given shift of: \$ 133.34/hourly
- This prevailing wage rate reflects 4 hour minimum per day, per truck, as well as a 6 hour minimum per night, per truck.

Continued.....

- All quotes must be on an R & S Trucking quote sheets (pages 1, 2, 3 & 4); all purchase orders/letter of intent to duplicate the same. PLEASE ATTACH A COPY OF QUOTE, WITH ALL PURCHASE ORDERS OR WORK AUTHORIZATIONS.
- Purchase orders/letter of intent must be issued within 14 working days of bid date; Hourly rates only will be honored during the transition period.
- When per load / un-scaled loads are quoted, the following allowable times apply: Quarry site / Load site with Aggregates for all truck (4 and 5 axle) types: 5 minutes. And at the Dumpsite / Job site with Aggregates for Double bottoms / Semi ends / Super dumps: 5 minutes.
- Demurrage / Standby Time charges will be charged, after the standard allowable times listed, based on the hourly rates quoted, on page 1) as an example: \$85.00 hourly = \$1.42 per minute. Or \$ 90.00 hourly = \$1.50 per minute, or \$ 98.00/hourly = \$ 1.63 per minute, etc. Also standby time / demurrage starts upon arrival at the jobsite, including but not limited too; when governmental agencies/general contractors require traffic control points before the actual jobsite (traffic control points, flagmen control, lane closure etc.), and then standby time / demurrage charges will commence starting at the point of that traffic control location.
- It will be the contractor's /customers sole responsibility to collect all demurrage /standby time at any quarry site/ load site.
- Never will any "Averaging of Standby Time" be allowed. In other words; standby averaging is not allowed at all, as first stated on page 1, reflective in qualifying maximum allowable times in tonnage rate quotes. Demurrage / standby time will be billed and become due & payable after the maximum allowable times listed at the rate per minute quoted.
- Semi End Dumps, Double bottoms, Semi Bottoms and 10-Wheelers are hourly unless agreed in writing by R&S Trucking & Contractor prior to job commencing.
- All quotes reflect 100% trucking of said job. R & S Trucking reserves the right to void any /all prices if less than 100%.
- Please call truck orders in by 2:00 p.m., to check availability. Please notify us several days in advance of any new jobs starting and/or any large truck orders of 10 or more.
- On all jobs that require certification rosters, additional names may be added at any time.
- PROBLEMS ON PROJECTS:** The contractor must FAX into our main office a detailed description of the occurrence, including the sub hauler and/or drivers name, owner of the truck, truck number/trailer(s) number and description of truck/trailer(s), and copy of the freight tag that pertains to this incident or occurrence, along with estimated dollar (\$) amount of loss (when applicable) on the same day of the incident or occurrence. R&S Trucking will accept "NO DEDUCTS OR BACK CHARGES" unless they are notified as stated above. R & S Trucking will then respond back to customer after investigating the incident. All claims for recovery by contractor for loss or damage to commodity hauled must follow this procedure. Any deviation from this procedure will not change the costs incurred and may cause immediate withdrawal of trucking from said job
- It is the contractor's responsibility to FAX notice to R&S Trucking Estimator prior to job bidding if certified payroll and/or union participation is required (also see item 32 following).

- 13. **Saturday rates:** add 12.5% to the weekday rates, listed on Page 1. Also, **Sunday & Holiday rates:** add 25 % to the weekday rates, listed on Page 1. This applies to all rates quoted, regardless of hourly, per ton, per load = ALL RATES.
- 14. **Minimum Show-up time:** On every truck dispatched to customers project, customer will be responsible for paying at least a 4 hour minimum daytime, & 6 hour minimum nighttime, unless previously arranged with dispatch.
- 15. All un-scaled tonnage quotes will be based on 26.28 tons per load for Double bottoms. All scaled tonnage quotes for partial loads will be based on 24.00 tons for Transfers. All scaled tonnage quotes for partial loads will be based on 19.00 tons for Semi ends, Semi bottoms and Super Dumps. These quotes are based on R&S Trucking performing all trucking requirements on said project. Also, when partial loads are sent back from the jobsite, back to the quarry: The time spent traveling back will be charged at the quoted hourly rate.
- 16. If Contractor chooses not to have loads weighed, then contractor is responsible for all overloads, overload tickets, and anything that occurs if load is not weighed.
- 17. Hourly time to be charged will start from the time reporting to work (time truck was ordered to be at load site), to the time completing the hourly service, which includes travel time back to the load site on the last load. Time to be charged shall include time for transportation in both directions, time for loading and unloading, and waiting or standby time, at origin and/or destination. Total chargeable time shall be computed to the nearest one-tenth of an hour. Deductions from the time only allowed for carrier equipment failure and meal delays.
- 18. R & S Trucking shall render to contractor invoices for services agreed to in the quote sheet/purchase order. Contractor agrees to pay R & S Trucking by the 20th day following the last day of the calendar month in which the work was performed, billed by the 5th day of the following month. When large truck orders are continuous in a given period it may be required that the contractor will be billed weekly and said payment to be no later than 10 days of receipt of invoice. Interest to be charged on all past due accounts at the maximum allowed by law.
- 19. Please provide R & S Trucking Estimator with all specific job information, which will be the basis of our quotes. Specific details such as lane closures, traffic control points, project labor agreements/organized labor unions, locations for transfers to drop trailers, State, County & City agencies road closures, on and/or off-ramp turn-around access, designated truck routes per job specific contract language, etc., are needed to qualify per ton or per load rates, as these types of rates reflect time constraints. R & S Trucking reserves the right to void quoted rates that reflect time constraints (per ton or per load) at any time, due to lack of specific accurate information given at time of request. Default to hourly rates might prevail, however that could change also dependent on information given at time of request!
- 20. Contractor must provide a site on each job for all truckers to clean out trailers daily at end of the last load.
- 21. R & S Trucking is not responsible for delays caused by equipment failure of employees, agents or sub haulers of R & S Trucking, or by act of God, strikers, lockouts or similar matters beyond the control of R & S Trucking.
- 22. If any action at law or in equity, including an Action for Declaratory Relief, is brought to enforce or interpret the provisions of this agreement, the prevailing party shall be entitled to reasonable attorney's fee which may be set by the court in the same action or in a separate action brought for that purpose in addition to any other relief to which that party may be entitled. This agreement will be governed by and construed in accordance with the laws of the State of California.
- 23. Any changes to R & S Trucking freight tags must be received by FAX in the R & S Trucking main office within 2 working days from date of work performed by R & S Trucking for review.
- 24. Notices will be deemed communicated to either party to this agreement by either fax or certified mail using date of actual receipt of notice to receiving party.
- 25. R&S Trucking is not responsible for project production due to availability of trucks or any other reason, on any job.
- 26. As it is standard practice in the construction industry for contractors not to sign truckers tracking quotes, if R & S Trucking sign's a contractor's agreement/contract for trucking services; this action will be construed as a contractor signing an R & S Trucking complete quote with its terms & agreements. This also means that an R & S Trucking quotes supersedes any/all contractors agreements/contract/purchase order, and contractor will hold harmless anything associated in that contract, including production.
- 27. R&S Trucking Co. is a **VENDOR**, not a **SUB CONTRACTOR**.
- 28. Yearly escalation raise on top of the base rate quoted shall occur at 6% yearly, commencing 1 year after the job start date, and shall continue yearly with 6% raises, year after year, for the continued duration of this same job.
- 29. All Asphalt mix designs, such as Polymer blends, Rubberized, Open-Grade, etc., require the contractor to supply a designated clean-out area on the jobsite, and to supply additional equipment & manpower to help facilitate the clean-out of any and all truck and trailer(s). This also includes other sticky materials: such as Bay Mud, Wet Concrete mixes, etc. The time spent on this additional clean-out is chargeable and accrues separately for this clean-out procedure, and this extra-time is not allowed to be averaged-out. In addition, R & S Trucking only hauls rubberized/open-grade type asphalt in 3-axle Double bottoms/Semi bottoms only, when available.

- 30. All rates quoted reflect a diesel cost per gallon up to and including: \$ 4.00/per gallon. After it rises to: \$ 4.01/per gallon, R & S Trucking will apply a diesel fuel surcharge rate of 1% for every \$.10 cent per gallon cost increase, as reported by the U.S. Dept. of Energy weekly on-highway diesel cost reports. Applying a diesel surcharge, after \$ 4.01/per gallon, shall be billed thru the previous weeks trucking work (1 week in arrears).
- 31. All quoted rates DO NOT reflect the cost of an on-site truck boss. If the need of one is required, and mutually agreed upon by R & S Trucking and the contractor requesting this need, then the requesting contractor agrees to pay all costs associated for an on-site truck boss type monitor. This additional fee typically runs approx. \$ 350.00/per day/per 8 hour shift, plus fuel cost. This rate is subject to change accordingly.
- 32. If & when and any & all Teamsters Local 315 or any other union local initiation fees and monthly union dues are required for any type of on-site/off-site/import/export trucking or trucks or owner-operators or independents that are pulling R & S Trucking's boxes or trailers = All dues payable will be paid out thru the general contractor awarded the above mentioned job. This applies to Project Labor Agreements also. R & S Trucking is not obligated to be a member of the Teamsters or join any other agreement with any organized union, or any project labor agreements.
- 33. When "budget trucking only estimates" are provided alongside quoted hourly rates, these budgets are provided reflecting the contractors/estimators desire & requests to help arrive to a: "Approximation of time cycles and/or tonnage estimate to help create a budget cost +/-". These budget costs/rates are not to be considered accurate enough for a commitment and are created only for a convenience, therefore only the hourly rates quoted at the time shall prevail.

Additional Good Faith Efforts

Ghilotti Bros., Inc. (GBI) has a long history of meeting or exceeding contract expectations in our projects for safety, schedule, budget and quality. But we regularly go beyond that when working towards the Departments overall goals and aspirations for utilization of DBE's by participating over and above a project specific requirement. While we routinely solicit vendors and subcontractors through our comprehensive and systematic outreach on a job by job basis, our companies 3rd generation Ownership, President Mike Ghilotti, serves on the Department's DBE Participation Committee, Task Group B, with Mark Leja and other Caltrans leadership and industry members to provide feedback and guidance to the Department regarding the construction marketplace and DBE participation. GBI regularly attends various Caltrans, county, city and agency outreach, networking, and pre-bid meetings to network with potential DBE's and explain the opportunities working with GBI can provide.

GBI has had the pleasure of working with Pendergast Consulting Group over the past five years on small and disadvantaged business participation programs for large and small construction projects, most notably the Doyle Drive reconstruction program in San Francisco. On that particular project, GBI teamed with Environova Consulting, a small local business headed by Basil Falcone, for Environmental Health and Safety Services. GBI fostered the relationship and has continued working with Environova well beyond San Francisco and the Doyle Drive program. Environova's mentored success with GBI's assistance now has them servicing large contractors including Hathaway Dinwiddie, Pankkow, and Swinerton.

Mr. Pendergast has shared with us the significant ways that GBI could work with numerous agencies such as Caltrans, the Golden Gate Business Administration, San Francisco Human Rights Commission, and San Francisco County Transportation Authority to name a few, introducing us to dozens of vendors that routinely go undocumented as outreach. We often "meet and greet" subcontractors by having them come into our office to see how we operate and meet our GFE Administrator and the Estimators as well as Company leaders.

GBI intends to continue to be an industry and Department resource for DBE vendor implementation. In the spirit of our past success with emerging businesses, we've recently engaged and offer the following firms as additional examples of our outreach efforts.

- Anvil Builders
- Azul Works
- D-Line Constructors
- Empire Engineering and Construction
- The Their Group

Task Group B Status Update
December 3, 2013**

| Task Group B Members | |
|-------------------------------|-------------------------------|
| Mark Leja, Caltrans | Laura Bills, Nitta Inc. |
| Angela Shell, Caltrans | Mike Ghilotti, Ghilotti Bros. |
| Ramon Carlos, Caltrans | Mark Serrano, RE Serrano |
| John McMillan, Caltrans | Jeff Turner, Flatiron |
| Rita Ferguson, G & F Concrete | |
| Debbie Hunsaker, Alert-o-Lite | |

The task group held a conference call on November 22, 2013 to discuss the remaining action items.

Action Item Updates

Action item #1 – Attend outreach events to discuss post-award DBE information

Status – The fact sheet was completed by OBEO and Construction and is ready for hand out at outreach events where DBE firms will attend. The fact sheet was also handed out at the Caltrans-Industry meetings on December 2nd and 3rd.

OBEO and Construction are continuing to work on a fact sheet related to the DBE program as well as identifying appropriate outreach events for Construction staff to attend. The fact sheet will be handed out by Caltrans staff at outreach events to educate current and future DBE firms on pre/post award activities related to DBE use on projects.

Action item #2 – Acknowledge Prime Contractors Who Use DBE Firms

Status - The Commitment at Award report has been updated to incorporate additional information requested by the task group. This report is being handed out at regular industry and SBC meetings.

OBEO is also working on a Utilization report to be used as another consideration tool for acknowledging prime contractors who consistently use DBE firms. This report should be ready sometime early in 2014.

The DBE Commitment at Award report is being updated by Ramon Carlos to add the following comments: (1) the data is only for federal-aid contracts and (2) what some of the columns mean – such as the contractor’s column. Ramon is also working with the design-build team to capture DBE participation on those contracts.

This report will continue to be monitored over the next fiscal year and an evaluation will be conducted with respect to recognizing prime contractors with high participation numbers.

Action item #3 – Notifying listed DBE firms of contract award – Completed

Status - An email was sent on November 7, 2013 to all DBE firms notifying them of the availability of contract award information on the Office Engineer website.

The Award Tracker Report is now being updated regularly by Office Engineer. Ramon is working with the DBE Certification Unit to see when an email can be sent out notifying DBEs that they can check this Award Tracker Report to see if a project was awarded using their firm.

Action item #4 – Improving Enforcement - Use of District Small Business Liaisons/Dispute Resolution

Status – 1) Training of district small business liaisons was completed in September. 2) The idea of Industry setting up its own dispute resolution processes was discussed during the December industry meetings for further action as necessary on Industry’s part.

An idea is to have Industry (Primes/Subs/Suppliers) arrange for their own DRB services. Construction would support a request to the industry associations for them to consider offering this service to their members and will bring it up at our liaison meetings.

Action item #5 – Use of Joint Checks on Caltrans Projects

Status – OBEO sent out a joint check survey to all DBE firms in mid-October. The results have been tabulated and were discussed during the task group conference call. Initial results indicate most DBE firms are not currently using the joint check process. The task group believes the prime contractors should also weigh in on the use of joint checks outside the DBE program and the benefits to subcontractors and/or DBEs. OBEO and Construction will develop a survey for primes and then evaluate the results of both surveys before moving forward with additional discussions with FHWA on the use of joint checks.

Construction and OBEO developed a draft survey and provided it to the task group for review. Edits are being made by Ramon Carlos and he is working on sending the survey to all DBE firms in the database. When the results of the survey come in, the group will include an analysis of the survey in its recommendation for moving forward with the use of joint checks on Caltrans projects.

Task Group B – Utilization

November 22, 2013

10:30 AM – 12:00 Noon

Conference Call Summary

Attendance

Angela Shell, Caltrans
John McMillan, Caltrans
Ramon Carlos, Caltrans
Rita Ferguson, G&F Concrete
Laura Bills, Nitta Erosion Control, Inc.
Mike Ghilloti, Ghilloti Bros.
Jeff Turner, Flatiron
Mark Serrano, RE Serrano

Summary

Mark Leja was unable to attend the call due to a last minute schedule conflict so Angela Shell started the conference call with discussion of the remaining action items.

Action item #1 – Attend outreach events to discuss post-award DBE information

OBEO and Construction completed the fact sheet related to certification and monitoring and enforcement activities within the DBE program. The draft document was emailed to the members prior to the call. A suggestion was made to present the fact sheet at the upcoming construction industry meetings for informational purposes.

Construction now has a list of outreach events for the next few months and the fact sheets will be handout out at these events. Rita Ferguson asked if Caltrans was still interested in attending industry outreach events and Angela confirmed that Caltrans could with consideration of location and available resources. Rita will forward the list of events to Angela.

During the discussion of this topic, Laura Bills identified an issue with OBEO Contract Evaluation unit staff throwing out bids from DBEs as a result of staff confusion on appropriate work codes for DBE participation. Ramon Carlos indicated he would provide that feedback to OBEO staff.

Action item #2 – Track DBE commitment at award

The DBE commitment at award report is complete and is being updated on a monthly basis. Angela did not provide it to the task group members for this meeting but committed to providing it at all future meetings so the task group can evaluate how contractors are doing at meeting the DBE contract goals. Jeff Turner asked if the report can be posted in the internet for easily accessing the information. Ramon indicated the plan is to post it on OBEO's website.

Ramon also indicated he is working on a similar report for utilization at the end of the project. He expects the report to be ready for presentation sometime after January 1, 2014. It will be presented to the task group members at the next conference call.

Action item #3 – Notifying listed DBE firms of contract award

An email was sent to all DBE firms in November with information on how to review the Caltrans Award Tracker report to see if their firm has been listed for participation credit. Ramon received positive feedback from DBE firms on the content of the email. Several DBE emails came back as undeliverable and some DBEs have indicated they did not receive the email at all. Ramon is providing that feedback to the OBEO Certification Unit for updating of DBE records.

This item is complete and no further action is required from the task group.

Action item #4 – Use of District Small Business Liaisons as a Resource/Dispute Resolution

The district small business liaisons have been trained on basic construction processes such as payroll and progress payments/stop notices. The district staff is actively engaged in assisting DBE and small business firms with concerns or issues.

The group discussed bringing the issue of identifying an alternative process for dispute resolution between the prime and subcontractors to the December Caltrans-industry meetings for gathering ideas on how this concept might work. Prompt payment to both DBEs and subcontractors in general appears to be one of the main dispute topics. Both Rita and Laura brought forward perspectives on delayed payments and the availability of the stop notice process. The group agreed that if the project itself had some mechanism of partnering (dispute resolution or a partnering process) then disputes could be resolved faster.

Action item #5 – Use of Joint Checks on Caltrans Projects

A joint check survey was sent to all DBE firms in October. The results of the survey were provided to the task group prior to the conference call. The survey seems to suggest that many DBEs are either not familiar with the process or are not using it. The data also seems to suggest that many of the responding DBEs may not be operating in the construction industry. The task group suggested sending the survey out to prime contractors to get a full perspective on the benefit and use of joint checks. Mark Serrano suggested that not allowing a joint check process could result in some closed opportunities for use of DBE firms due to perceived risks for performance or payment issues and the inability of a DBE firm to provide bonding on a project. Rita agreed that there are some aspects of the joint check process that are relative to a DBE firm being able to participate on a project. Mike Ghilotti suggested sending the prime contractor survey to the industry associations as well.

Ramon and Angela will work on questions for a prime contractor joint check survey and report back to the task group during the next conference call.

Mark suggested revisiting the fraud discussion with FHWA to see if any additional clarification can be provided to help with moving the process forward.

The next full committee meeting is December 3, 2013 at 1:30 pm. Mark will report on the progress of the action items.

FACT SHEET

How to apply for DBE Certification?

California Unified Certification Program
 Disadvantaged Business Enterprise Certification Program
 December 2013

The United States Department of Transportation (U.S. DOT) requires that a Unified Certification Program (UCP), governed by 49 Code of Federal Regulations (CFR), Part 26, be put into practice by each state. The purpose of the UCP is to provide "one-stop shopping" of certification services to socially and economically disadvantaged individuals. The California Department of Transportation (Caltrans) processes DBE applications statewide. There are other certifying agencies that certify geographically based on their region. The following is information regarding the DBE Certification Program:

What are the main eligibility requirements?

- ▶ **Social and Economic Disadvantage:** A disadvantaged owner must be a U.S. Citizen (or resident alien) and meet the federal definition of socially and economically disadvantaged as defined in 49 CFR, Part 26.67. Presumptive groups include women, African Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Subcontinent Asian Americans, or any individual found to be socially and economically disadvantaged on a case-by-case basis.
- ▶ **Personal Net Worth:** Only disadvantaged persons having personal net worth (PNW) of less than \$1.32 million can be considered as a potential qualified DBE.
- ▶ **Business Size Standard:** A firm (including affiliates) must be a small business as defined by the United States Small Business Administration. Average annual gross receipts over the previous three fiscal years may not exceed \$22,410,000 (\$52,470,000 for airport concessions in general, with some exceptions).
- ▶ **Ownership:** Must be a for-profit small business concern, where socially and economically disadvantaged individuals own at least 51 percent interest in the firm.
- ▶ **Management and Control:** The DBE owner(s) must possess the power to direct or cause the direction of the management and policies of the firm and to make day-to-day decisions, as well as long-term decisions on matters of management, policy, and operations.
- ▶ **Independence:** The business must not be affiliated with another firm in such a way as to compromise its independence and control.
- ▶ **On-Site Visit:** The Federal regulations require an On-Site Review be conducted for all DBE applicants.

How can I apply for DBE certification?

To begin the process, download the application from the Caltrans website at: http://www.dot.ca.gov/hq/bep/business_forms.htm. Under the Disadvantaged Business Enterprise Program (DBE) heading are Internet links to the DBE application, FAQ's, DBE brochure, and a Power Point tutorial. If you still have additional questions, please call the Caltrans DBE Certification Office at: (916) 324-1700, Monday through Friday, 8:00 a.m. to 5:00 p.m., or e-mail us at: DBE.Certification@dot.ca.gov

Where do I send my application once it has been completed and notarized?

Review the list of certifying agencies located on the back of the application packet and submit your application to the agency in your area.

If you have any additional questions regarding DBE certification, please contact the nearest agency in the back of your application packet, and a certification analyst will help you with any question you have regarding the certification process/application.

What are the benefits of being DBE certified?

- Certification is recognized by 800 local agencies in California, other states, and private companies.
- Expands opportunities to participate in federally-funded projects.
- Become accessible to prime contractors needing to fulfill DBE participation goal requirements.
- Listings in official directories such as the CUCP database used by prime contractors.
- Increases opportunities to network at events such as procurement fairs and pre-bids.
- Eligible for mentor protégé opportunities such as Caltrans' Cal Mentor programs.
- No fees to apply, except the cost of having your application notarized.

FACT SHEET

Construction Contract

Participation and Monitoring Requirements

Division of Construction
December 2013

49 Code of Federal Regulations (CFR), Part 26.55 provides the requirements for counting DBE participation on contracts awarded by the Department. When a contractor lists a DBE firm on a construction contract, the Department ensures the DBE is used on the project or the process substitution process is followed. Following is information regarding participation and monitoring requirements on the Department's contracts:

What are the main participation requirements?

- ▶ **Perform a Commercially Useful Function (49 CFR 26.55 (c) 1, 2, 3):** A DBE firm must perform a commercially useful function by being responsible for execution of the work of the contract or subcontract including, but not limited to, the following :
 - Perform, manage , and supervise the work involved
 - Negotiate price, determine quality and quantity, order, and pay for materials and supplies used in the work
 - If applicable, install the materials
 - For trucking services, own and operate at least one fully licensed, insured, and operational truck and use it on the contract

- A commercially useful function does not include:**
 - 1) A DBE's role that is limited to being an extra participant in a transaction or contract through which funds are passed in order to obtain the appearance of participation.
 - 2) A DBE that does not perform at least 30% of its contract work with its own forces or subcontracts out a greater portion than that expected for normal industry practices.
- ▶ **Submit Certified Payroll Records:** If the work performed requires payment of prevailing wages, submit weekly certified payroll records to the prime contractor. All certified payroll records are due to the Department by the 15th of the month for the previous month's work.
- ▶ **Keep records of work performed and payments:** The Department may request information from the prime contractor regarding a DBE's participation on the contract. This may include requesting copies of invoices generated by the DBE, payments made to the DBE, cancelled checks substantiating actual payments, supplier invoices or purchase orders, delivery or freight receipts and any other documents supporting a commercially useful function. A DBE should keep these records on file should the Department request verification of DBE activities.
- ▶ **Comply with a request for documents:** In response to a Department audit request or commercially useful function review, the prime contractor may request copies of documents to be submitted by the DBE. Normally a deadline for providing the documents is required.
- ▶ **Notify the Department if your firm is listed for commitment, but not used on the project:** The Department publishes the award tracker report that lists all of the approved DBE firms committed for participation on a contract. This report can be used as a tool to confirm your quote was used by a prime contractor. Make regular contact with the prime contractor before work starts to establish contract details. If your firm is not used on the contract, contact the Department for assistance.
- ▶ **Review the Department's contractor payment web page:** The Department publishes payments made to prime contractors on its website for all construction contracts. DBE firms should check this page regularly to identify when a contractor has been paid for items of work performed by DBE firms. The payment website is located at: <http://www.dot.ca.gov/hq/asc/oap/payments/>

| What steps does the Department take to monitor participation? | What steps does the Department take for enforcement? |
|--|--|
| <ol style="list-style-type: none"> 1) Conduct field reviews of DBE participation including monitoring the work sites and documenting contract activities. 2) Conduct interviews with DBE firm employees performing work on the project. 3) Disallow prime contractor termination or substitution of a listed DBE firm without following the substitution process identified in section 5-1.03, "Performance of Disadvantaged Business Enterprises" of the contract specifications. 4) Require the prime contractor to submit monthly reports of DBE trucking participation. 5) Require the prime contractor to submit a final report of DBE participation on the contract – including payments made to DBE firms. | <ol style="list-style-type: none"> 1) The Department withholds the full amount of DBE participation from a prime contractor's payments for failure to use the DBE firms as committed to at bid time or failure to follow the substitution process identified in the contract. 2) The Department may recommend decertification of a DBE firm for failure to adhere to the certification and participation requirements of 49 CFR Part 26. 3) The Department withholds funds from the prime contractor for stop notices filed as a result of non-payment to subcontractors, suppliers, or other entities. |

Disadvantaged Business Enterprise Participation Committee – Meeting Record

AGC Office – 3095 Beacon Boulevard, West Sacramento, CA 95691

September 25, 2013 – 1:30 p.m. to 3:30 p.m.

A. Welcome and Introductions – René Halverson

1. Called to order at 1:38 p.m.

B. Review - René Halverson

1. Agenda and meeting record – reviewed; no changes.
2. Committee Charter
 - a. Committee members agreed to continue their work.
 - b. No changes to the charter at this time.
 - c. Per the charter, the committee will review again in July, the end of the fiscal year.
 - d. Re: inconsistent attendance – committee continues to support the need for members to be physically present; will evaluate individuals who have been inconsistent in their attendance on a case by case basis.
3. Committee structure
 - a. Suggested adding a trucking or supplier business to the committee; Co-Chair René Halverson will also talk further with Angela Shell, Construction, about this matter. This suggestion was supported by the committee. Greg Dineen has access to many trucking companies; stated it might be a good idea to have a trucker who has just received a contract to join the committee.
 - b. Co-Chair Halverson pointed out this committee was originally conceived as a smaller focus group –having reached the one-year mark, the chairs are open to changes the committee might suggest.
 - c. Report provided by Ramon Carlos' staff might also be considered a source for primes and subs.
 - d. Importance of consistent attendance by the industry representatives already on the committee – it was pointed out the committee does not need more primes, but needs those on the committee to participate.
 - e. According to Rita Fergeson, Kiewit is interested in joining the committee.
 - f. Importance of FHWA participation – Mike Duman, the committee's FHWA representative, is currently on assignment out of state; it may be necessary to make an exception to the "no alternates" policy of the committee in order to have another representative from FHWA attend.
4. New item for assignment: Caltrans consider revising the insurance language requirements for subcontractors proposed by Rebecca Llewellyn
 - a. This matter was initially raised by Ms. Llewellyn through the Construction Committee of the Statewide Small Business Council (SBC).
 - b. Sample put forth by Ms. Llewellyn is taken from the language used by SANDAG:
Insurance required of the Contractor shall be provided by or in behalf of all subcontractors to cover their operations performed under this Agreement. Contractor shall not require subcontractors to maintain insurance amounts that are disproportionate to the scope and dollar value of work subcontracted. Contractor shall be held responsible for all modifications, deviations, or omissions in these insurance requirements as they apply to subcontractors.
 - c. Agreed this new task assignment will be handled by Task Group B chaired by Mr. Leja.

Disadvantaged Business Enterprise Participation Committee – Meeting Record

AGC Office – 3095 Beacon Boulevard, West Sacramento, CA 95691

September 25, 2013 – 1:30 p.m. to 3:30 p.m.

- d. Co-Chair Halverson requested the task group work with the SBC Construction Committee through Ramon Carlos.
- 5. Reports from OBEO Small Business Unit – Ramon Carlos
 - a. DBEs that have received contracts with Construction between 10/1/12-6/30/13 – 2-pages; quarterly report; this is new; first was distributed in January; next will be available in December.
 - b. A&E contracts from 10/1/12-6/30/13 – 1 page.
 - c. Other reports being developed: a breakdown of individual contract utilization of DBEs.

C. Task Group B: Post-Construction Issues – Mark Leja

[Refer to the handout distributed at the meeting for a more detailed report.]

Action Item 1, Attend outreach events to discuss post-award DBE information – work in progress.

Action Item 2, Acknowledge prime contractors who use DBE firms – using recognition as the incentive. Ms. Llewellyn mentioned District 11 uses this approach very successfully.

Action Item 3, Notifying listed DBE firms of contract award – Award Tracker Report online is being updated regularly and serves as a way for firms to check if a project has been awarded using particular DBEs.

Action Item 4, Improving enforcement; use of District Small Business Liaisons – see handout.

Action Item 5, Use of joint checks on Caltrans projects – per Ramon Carlos, the survey is being prepared and should go out in the first week of October; will be sent to over 4,500 DBEs. Ms. Llewellyn commented the banks are not taking two-party checks. The survey is an opportunity for DBEs to reveal their experiences such as this.

Other discussion:

1. DRB – utilize for dispute resolution; also suggested the American Arbitration Association [www.abr.org]; best to have an independent third party to resolve issues.
2. Caltrans encourages primes to have a dispute resolution process in place for resolving issues with their subcontractors. David Jones, AGC, who was sitting in for Sam Hassoun, mentioned AGC has a list of dispute resolution resources.
3. Steve Rhoades asked who enforces the prompt payment act – after listening to Mr. Rhoades' situation, it was concluded he needed to file for a stop notice. In other cases, the matter might be managed through a dispute resolution board to possibly avoid a stop notice. Ms. Shell also suggested notifying the Contractors State Licensing Board.
4. Most problems are associated with primes new to doing business with the State – Ms. Ferguson noted new contractors, while new to contracting with the State, will sometimes withhold payment to the subs despite receiving payment from Caltrans. Co-Chair Halverson suggested matters such as these would fall under Action Item 4 regarding enforcement.

D. Task Group C: Pre-Construction Issues – Sanjay Singh for Janice Salais

[Refer to the meeting record as a reference for this report.]

The group was not able to meet over the past three months, so Mr. Singh's report was limited to what he had knowledge of through his work in Certification.

Action Item 7, Develop a chronological fact sheet on changes to 49 CFR Part 26, which will be placed on the OBEO website – on hold due to changes anticipated

AGC Office – 3095 Beacon Boulevard, West Sacramento, CA 95691

September 25, 2013 – 1:30 p.m. to 3:30 p.m.

with the New Proposed Rule Making.

Action Item 10 – Develop a DBE certification process flow chart – completed and posted on the Caltrans web page.

Action Item 11 – Address outcome of the list of action items for this task group – ongoing; to be assessed in January 2014.

Other discussion:

1. Transitioning from NAICS to work code – discussions with IT have revealed a replacement code would have to be used.
2. Co-Chair Halverson said they are pursuing an IT solution to replace the database, but it is not certain what the outcome will be; the source holding the data is the main challenge, because it is built on an old Oracle database.

E. Wrap-Up and Next Steps

1. Decisions
 - a. Explore trucking companies for potential committee member; work with Ms. Shell and current data for suggestions.
 - b. Primes – review the participation of prime firm representatives currently serving on the committee.
 - c. FHWA presence at meetings – agreed this is necessary; while Mike Duman is on assignment out of state, the committee is willing to consider an alternate; Co-Chair Halverson will pursue this matter.
2. Next steps
 - a. Task groups will continue their work.
3. Next meeting scheduled for **Tuesday, December 3, 2013, 1:30 p.m. to 3:30 p.m., AGC Office in West Sacramento (to be confirmed).**

F. Adjournment – Meeting adjourned at 3:07 p.m.

The task group held a conference call on August 30, 2013 to discuss the remaining action items.

Action Item Updates

Action item #1 – Attend outreach events to discuss post-award DBE information

OBEO and Construction are continuing to work on a fact sheet related to the DBE program as well as identifying appropriate outreach events for Construction staff to attend. The fact sheet will be handed out by Caltrans staff at outreach events to educate current and future DBE firms on pre/post award activities related to DBE use on projects.

Action item #2 – Acknowledge Prime Contractors Who Use DBE Firms

The DBE Commitment at Award report is being updated by Ramon Carlos to add the following comments: (1) the data is only for federal-aid contracts and (2) what some of the columns mean – such as the contractor’s column. Ramon is also working with the design-build team to capture DBE participation on those contracts.

This report will continue to be monitored over the next fiscal year and an evaluation will be conducted with respect to recognizing prime contractors with high participation numbers.

Action item #3 – Notifying listed DBE firms of contract award

The Award Tracker Report is now being updated regularly by Office Engineer. Ramon is working with the DBE Certification Unit to see when an email can be sent out notifying DBEs that they can check this Award Tracker Report to see if a project was awarded using their firm.

Action item #4 – Improving Enforcement - Use of District Small Business Liaisons

1) OBEO conducted a two day training/meeting with the Small Business Liaisons on September 11th and 12th. The Division of Construction provided information to staff on the stop notice process and other enforcement activities conducted in the districts.

2) During the task group conference call, a discussion occurred on identifying an alternative process for dispute resolution between the prime and subcontractors. The use of the informal dispute resolution advisor or board could provide an avenue for primes and subs to resolve issues before they get to the stop notice or claim process.

Another idea is to have Industry (Primes/Subs/Suppliers) arrange for their own DRB services. Construction would support a request to the industry associations for them to consider offering this service to their members and will bring it up at our liaison meetings.

Action item #5 – Use of Joint Checks on Caltrans Projects

Construction and OBEO developed a draft survey and provided it to the task group for review. Edits are being made by Ramon Carlos and he is working on sending the survey to all DBE firms in the database. When the results of the survey come in, the group will include an analysis of the survey in its recommendation for moving forward with the use of joint checks on Caltrans projects.

Mike Ghilloti, Ghilotti Bros.
Jeff Turner, Flatiron
Debbie Hunsaker, Alertolite

Summary

Mark Leja kicked off the conference call with a brief review of the minutes from the June 2013 full committee meeting. The task group then moved to discussions of the remaining action items.

Action item #1 – Attend outreach events to discuss post-award DBE information

OBE and Construction are continuing to work on a fact sheet related to the DBE program as well as identifying appropriate outreach events for Construction staff to attend. The fact sheet will be handed out by Caltrans staff at outreach events to educate current and future DBE firms on pre/post award activities related to DBE use on projects. A final draft of the fact sheet will be sent to the task group members for review and comment.

Action item #2 – Track DBE commitment at award

Ramon Carlos provided an updated copy of the DBE Commitment at Award report. The task group asked that Ramon add some notes on the report identifying that (1) the data is only for federal-aid contracts and (2) that the prime contractor column relates to the number of contracts awarded. Debbie Hunsaker asked if the report could also capture design-build project information. Ramon advised that he is currently working with Ray Tritt's group to capture the data for design-build contracts.

Action item #3 – Notifying listed DBE firms of contract award

This issue still remains outstanding. Office Engineer suggested that perhaps a DBE corner could be added to the Office Engineer, Contractors Corner web page that DBE firms could click on and get to information that might assist with identifying if a firm was listed on a given project.

Angela will work directly with Office Engineer staff to see if a DBE link can be implemented.

Action item #4 – Use of District Small Business Liaisons as a Resource

The group discussed the use of the district small business liaisons for increased assistance with contractual issues and disputes. After some discussion, the group decided that the liaisons may not be the best avenue to resolve disputes; rather the project personnel would be better equipped to respond to contractual disputes.

OBEO will be conducting a two day training/meeting with the Small Business Liaisons in September. The Division of Construction will provide information to staff on the stop notice process and other enforcement activities conducted in the districts.

The discussion turned to identifying an alternative process for dispute resolution between the prime and subcontractors. The use of the informal dispute resolution advisor or board could provide an avenue for primes and subs to resolve issues before they get to the stop notice or claim level. Mark agreed to look into current Caltrans policy on the use of the dispute resolution process and whether it could be applied to issues between primes and subs.

Action item #5 – Use of Joint Checks on Caltrans Projects

The group discussed the draft questions for the joint check survey. The recommended edits are as follows:

- 1) Remove question number 1 – Do you use joint checks on Caltrans projects?
- 2) Include a definition of joint checks as provided in FHWA guidance
- 3) Have you done work on Caltrans projects before?
- 4) Are you in favor of this practice; how has it benefitted you?

To solicit a broader response, the group also asked that the survey be sent to all DBE firms in the database rather than just those who regularly work on Caltrans projects. Ramon and Angela will edit the survey and work with OBEO to have it sent out.

The next full committee meeting is September 25, 2013 at 1:30 pm. Mark will report on the progress of the action items.
