Subject: FW: Water Availability for Caltrans project (03-4F090)

Ray,
Here's the email from Friday. I'll be forwarding the other two emails I sent this week. If you could respond to each email individually, that would be great. Thank you and I apologize for not getting your email address correct the first time!

Subject: Water Availability for Caltrans project (03-4F090)

Ray,
Thank you for speaking with me this afternoon. One of the projects we have is a bridge rehabilitation project which will require approximately 5,233 gallons of water. Attached you'll find a letter with the project description and project map.

Please let us know if non-potable water will be available for this project. I will be sending you one more project Monday morning as well for your review. Thank you.

Regards,

Nicki Johnson

Subject: Water Availability for Caltrans project (03-4F090)

John,
We have a project on Route 5 and 80 in Sacramento and would like to know if there will be water available for construction. Please see attached letter which includes a description of the project and the vicinity map. Thank you for your time.

Sincerely,

Nicki Johnson
