

10-3. __ CABLE MARKER

Cable markers shall be provided at 50 feet spacings in places where fiber optic conduit is placed in non-paved areas. These markers shall conform to Standard Plan A73C, Class 1, Type F, flexible post delineators, except that the marker shall be non-reflective. The following text shall be written on each marker: "WARNING, FIBER OPTIC CABLE, call 72 Hours before You Dig, 1-510-286-4444, COMMUNICATIONS". See details on the plans.
