## Annual Per Capita Disposal

### Employees

Total Number of Employees: 1,877

Explain who was included in this number and how was this employee number calculated.

*Included in the total number are Caltrans employees within the building and off-sites. The number of employees was provided by several sources, our Maintenance Department, Administration Department and Construction Department. All departments have clarified the number of employees in the buildings and their off-sites. We do have other agencies in the building as well as visitors. The other agencies are not factored into the reporting, they do their own reporting. Additional employees included are employees at off-sites facilities.*

### Non-Employee Population

Total number of non-employee population: 395

Population Type: Visitors

How was this population number determined?

*Visitors are included in this number. The number was calculated by our visitor logs.*

### Disposal

Total amount disposed: 23,036.44 tons

How was this disposal number determined?

*Solid Waste Disposal and Recycling Reports are submitted by our Construction Department on construction projects. These reports indicate what went to land fields and what types of materials were disposed. The Solid Waste Disposal and Recycling Reports also included the types of materials that were diverted from the land fields and the amounts. Maintenance submitted a report generated by tickets when disposal is taken to land fields or when materials are recycled. In District 8 the tonnage to land fields has decreased. This is due to efforts made to recycle as much materials as possible. District 8 continued to have several projects in the demolition and clean up phase.*

### Annual Results

	Employee Population		Non-Employee Population	
	Target	Annual	Target	Annual
Per Capita Disposal Rate (pounds/person/day):	361.6	67.25	1,325.9	319.56

### Questions

What types of waste are still thrown away (not reused, recycled, or composted)?

*C&D waste and mixed debris includes concrete, asphalt and mixed vegetation. Even though much of these materials are being diverted from the landfills; the process to capture this information for all the projects has been developed and monitored. This is due to the Solid Waste reports developed 6 years ago. Although most of the materials were diverted, the amounts in the report are materials that could not be recycled, therefore taken to the land fields. The waste from the state agencies which is picked up by a refuse company is added into the waste thrown away. Most of these materials are also recycled by the refuse company, thus leaving a small amount that goes directly to the land field. Also added into the report is a high amount of waste taken to the land fields from a continuous effort to clean up our homeless sites. These sights are on the right of ways of our freeways and highways. Unfortunately, this waste cannot be recycled due to contamination.*

What difficulties or obstacles have you had with finding ways to recycle, reuse or compost these types of wastes?

*There are no difficulties or obstacles with Constructions' or Maintenance reporting's. Materials being disposed from our construction and maintenance projects are being monitored. Implementation and awareness of recycling efforts from Construction, Maintenance and our off site facilities has made recycling successful.*

## Programs

### Recycling

Beverage containers  
Glass  
Plastics (#3-7)  
Cardboard  
Newspaper  
Office paper (white)  
Office paper (mixed)  
Confidential shredded paper  
Copier/toner cartridges  
Scrap metal  
Wood waste  
Tires  
Construction materials/debris

*New employees are made aware of all of our internal recycling programs when hired by their Supervisors. Supervisors and employees are aware of internal waste such and items listed as universal waste and electronic waste. Our Property Controller is responsible for sending out all used ink cartridges as well as electronic equipment, through our state wide vendor recycler listing. A contract is put in place for hazardous waste, such as fluorescent lights, and fuel spills. Maintenance continues to have designated self-generated waste bins for the different waste picked up from our Highways and Freeways. Included are tires and rubber that are recycled.*

### Organics Recycling

- Xeriscaping (climate appropriate landscaping)
- Grasscycling
- Green Waste - On-site composting and mulching

*With the Governors' executive order, new landscaping and vegetation is now being replaced by drought tolerant plants.*

### Material Exchange

None

*None*

### Waste Prevention/Re-use

- Paper forms reduction - online forms
- Bulletin boards
- Remanufactured toner cartridges
- Reusable boxes
- Electronic document storage
- Reuse of office furniture, equipment & supplies
- Double-sided copies

*Caltrans continues to use the internet to access forms and pdf files to transfer the forms. DGS has a warehouse that surplus furniture is sent for reuse. E-mail is used for internal memos, flyers and notifications of activities*

### Green Procurement

- Recycled Content Product (RCP) procurement policy
- Environmentally Preferable Purchasing (EPP) procurement policy
- Staff procurement training regarding RCP/EPP policies
- RCP/EPP language included in procurement contracts for products and materials

*All paper supplies that are ordered by our reprographics department is recycled paper. All cleaning supplies need to be green product certified.*

### Training and Education

- Web page (intranet or internet)
- Signage (signs, posters, including labels for recycling bins)
- Brochures, flyers, newsletters, publications, newspaper articles/ads
- Office recycling guide, fact sheets
- New employee package

*If anyone should call or walk in to pick up any of our items that can be recycled. We encourage them to get on our State Certified Recycling Vendor list.*
