

OFFICE OF TECHNICAL SERVICES FUNCTIONS

The Office of Technical Services performs the following functions:

- Develop the statewide Capital Improvement Plan (CIP) for aviation needs and provide airport sponsor guidance. Prepare and Manage the State Aeronautics Program.
- Provide engineering assistance to local governments on airport capital improvement projects under the California Aid to Airports Program (CAAP).
- Review or manage State general aviation loans and Acquisition & Development grants
- Develop and manage federal grant contracts awarded from the Federal Aviation Administration Airport Improvement Program to support general aviation.
- Manage Airport IQ System Management (ASM) database and provide technical assistance to airport sponsors to update airport CIP project lists.
- Conduct public meetings to share information with stakeholder groups in conjunction with Federal Aviation Administration, the Association of California Airports, and others.
- Evaluate land use compatibility and proposed school sites near airports by developing site specific maps using AutoCAD.
- Maintain and update the Airport Pavement Management System (APMS) that identifies needs and estimates capital outlay costs.
