comments: Bicycle Plan: Where possible, make bike trails separate from public streets (use utility Right Of Way, for example). Where separation is not possible, require "No Parking" designation along bike lanes.

Prioritize projects like the I-10 Parallel that would give motorists an alternate route in event of traffic accident (sig alert)

Institute a method to reduce commercial truck traffic during rush hour traffic.

Add "slow vehicle" lanes to all major interstates and state highways with steep grades

Drop lanes from the left, not the right
