Gain an understanding of the Complete Streets approach and how it applies to: planning, preliminary conceptual design, and implementation! Learn how to plan for future Complete Streets as well as how to retrofit existing streets to provide for all modes of transportation!

The course will provide an overview of Caltrans' policies, and documents related to Complete Streets. This two day training consists of the following:

- Complete Streets Policy & Planning Overview
- New Planning Paradigm
- Operationalizing Complete Streets and Smart Growth
- Field Audit for Neighborhood Walkability and Multi-Modal Travel Access
- Design Standards and Guidance
- Roadway Design Concepts
- Intersection and Crossing Design Concepts
- Field Audit for Street Redesign for Walking and Multi-Modal Travel Access

Target Audience: Transportation Planners, Engineers from cross-functional areas & related staff.

This course grants 1.6 CEUs and 16 AICP CM credits (AICP CM credits pending).
