## welcome

Population growth, both locally and statewide, has led to increased travel demand and congestion on Route 46 East. The primary purpose of the 46 East for the Future process is to generate public interest to assist partner agencies (Caltrans, SLOCOG, and San Luis Obispo County) in the development of a 20-year improvement strategy for the section of Route 46 East from US 101 to Jardine Road. Please join us by offering your thoughts and suggestions.

## features

**May 29th Community Workshop a Success!**  
Caltrans and its partners hosted an open house and community workshop on May 29th at the Park Ballroom in Paso Robles to discuss potential improvement concepts for the 5 mile stretch of SR 46 East from the 46/101 interchange to Jardine Road. [Learn more...](#)

**Project Newsletter Available Here**  
A project newsletter announcing the 46 East for the Future planning process was recently sent to local residents and businesses. You can download the newsletter by [clicking here](#)
